Dr. and Mrs. O. B. Taylor and little son, Blanton, are leaving Sunday morning for New Orleans, Louisiana, for a vacation of several weeks with Mrs. Taylor's mother, Mrs. Anna Mary Price. The Doctor's announcement is elsewhere in this issue.

LIONS CLUB.

Twenty-two Lions and visitors assembled at the den at 12:15 Tuesday for a social hour in breadbreaking and in special entertainment rendered on the violin by Miss Leona Rahm, assisted on the piano by Miss Josie Roth. Miss Leona is a scholar and her technique as she played the classical compositions of the masters clearly demonstrated her proficiency and skill on that noted instrument. Miss Josie, also a scholar, performed her part so perfectly that the blending of the tones of the two instruments kept the Lions at bay with the sweetest harmonies till the Lion Chairman announced the meeting adjourned.

Our fellow-townsmen, Mr. Jacob Reilly, uncle of Miss Josie, and grandpapa of Miss Leona "chaperoned" the young ladies to the den and enjoyed the hospitality of the Lions and the entertainment given by the ladies. Welcome to you Uncle Jacob. Mr. O. J. Wurzbach of Cluff was a welcome guest with the pack. He is a member of the grandjury for the week.

Attorney K. K. Woodley, while attending court, spends his spare time with the Lions. He is an inspiration to the Lions. His enunciations when speaking to the Lions may be likened to those of a Socrates.

Lion Britsch seems too busy with court to come to dinner. Lion N. C. Johnson has "H. C." At least that's the kind of gas he sells. Lion S. A. Jungman gave his son a farewell dinner. Lion Dr. Meyer attends the sick otherwise he would have been there. Lion Windrow was compounding ingredients that tend to alleviate disease physically, while Lion Flynn ministered to those in need spiritually.

Let's make Lion attendance 100 per cent next Tuesday.

Mrs. Emil Graff was a pleasant caller at this office Tuesday. Mrs. Graff reports crop and live-stock conditions splendid on her farm and says although nothing sells for much money not much money is needed for a comfortable living on the farm. But Mrs. Graff sets a pace in her farming that not all farmers can follow; for instance, she led all the wheat farmers of this section, so we are told by others, with an average yield of 31 bushels to the acre this spring. Who beats that?

The graveling of the driveway from the highway into the Fair Grounds is in its finishing stages, and the road is expected to be completed and ready for use by Saturday. The driveway from the highway to the exhibit hall is a regular roadway, but from the exhibit hall to the grandstand and from the dance hall to the fence the driveway has been widened into a graveled parking place for cars.

Judge L. J. Brucks has opened a law office upstairs over the Green Tag Store and offers his professional services as an attorney-at-law to the public. Judge Brucks' experience as prosecuting attorney and presiding judge has given him a wide acquaintance with every phase of both criminal and civil law and equips him to handle competently all business entrusted to him.

Mr. Robert A. Saathoff accompanied Mrs. Saathoff and son, Chester, to San Antonio Wednesday where they joined Mr. and Mrs. H. E. Schneider on a week's visit to relatives at Houston. While there they will visit Galveston and possibly other points of interest. Mr. Saathoff returned from San Antonio the same day and is finding out how a bachelor lives.

Dr. and Mrs. W. F. Hasskarl of Brenham arrived unexpectedly at the Quilhi parsonage last Sunday noon and visited with Rev. and Mrs. Hasskarl till Tuesday. The Doctor and wife were on their return trip from Mexico City, where they attended the Pan-American Medical Convention, and before which the Doctor read a paper.

Joe L. Haby was a business caller at this office Wednesday and took advantage of FARMING'S club arrangement with the Express to renew for all three of his papers. Who will be next?

DID YOU EVER STOP TO THINK.

By Edson R. Waite, Shawnee, Oklahoma.

Everybody reads newspaper advertisements because they give the every-day facts they want to know.

Nothing approaches advertising in display efficiency and real money-getting appeal.

Advertisements take the guess work out of buying because the constant demand for advertised goods and service has proven their worth.

The infallible proof of good merchandise is in the demand. Advertised lines are always increasing in demand.

Experience has shown successful business concerns that they can acquire both prestige and new business by continuous, truthful advertising.

Concerns who draw into their commercial shells get nowhere until they wake up to the fact that if they want to gain this world's advantages they must advertise.

BUSINESS CONCERNS WHO HAVE WORTH-WHILE MERCHANDISE OR SERVICE SHOULD ADVERTISE NOT ONCE IN A WHILE BUT ALL THE WHILE.

THE TIME HAS COME WHEN EVERYONE WEIGHS THE VALUE OF A DOLLAR. EVEN THE BUSIEST MEN AND WOMEN TAKE TIME TO READ THE ADVERTISEMENTS CAREFULLY, FOR THEREIN THEY FIND GOODS OF QUALITY AT REASONABLE PRICES—THE KIND THEY WANT.

Advertising Helper.

COUNTY CHAIRMEN MEET.

Mrs. O. H. Miller, Chairman of the Women's Division of the Medina County Fair, and her assistants were hosts to the out-of-town chairmen and their committees, Tuesday afternoon, at the high school auditorium, for a business and social meeting.

Mrs. R. J. Chancey opened the meeting with an address of welcome, which was followed by a pleasing group of musical renditions. Instrumental numbers were a saxophone solo by Ulrich Burger, accompanied on the piano by Jack Muenink, and violin selections played by Misses Irene Saathoff and Leona Rahm. Vocal numbers were presented in a trio by Mrs. R. W. Gaines, Misses Esther Saathoff and Sarah Rothe. Miss Josie Rothe accompanied on the piano.

Plans for the pageant were discussed, with Mrs. Jack Lacy as chairman and Miss Ruth Lawler of Castroville and Miss Josie Rothe of D'Hanis appointed her assistants. Mrs. Horace Bradley, chairman of the parade, reported plans under way for the initial event of the fair, and announced that decorated floats and automobiles were desired for entrance, and especially urged that the business houses over the county enter commercial floats or cars in the parade.

About fifty representatives from over the county were present, with two visitors from Sabinal, Mrs. Smiley and Mrs. Barrington, who announced that Sabinal would take part in the Medina County Fair.

During the social hour the hostesses served sandwiches and iced tea.

DR. O. B. TAYLOR.

HONDO BOY WINS PROMOTION.

The June-July issue of the Southern Pacific Bulletin contains mention of three Southern Pacific employees who have recently won promotions to the ranks of the Texas National Guard. Major John Lansdale to be Lieutenant Colonel of the 11th Engineers, Second Lieutenant Arthur H. Jungman to be Adjutant with rank of First Lieutenant, and James E. Travis was made First Sergeant.

Speaking of the promotions, the Bulletin has the following to say about Lieutenant Jungman:

"Simultaneous with the promotion of Col. Lansdale came the announcement that Second Lieut. Arthur H. Jungman, Company F, 11th Engineers, has been made Adjutant, which change carries with the advancement in rank from second to first lieutenant.

"Lieut. Jungman, who is assistant engineer in the valuation department under Col. Lansdale, is the son of

TWO GOOD MEN GONE.

Hondo and Medina County lost two mighty good men this week in the deaths of E. W. Lacy and George Muennink, two long time and much loved citizens of the community.

Mr. Lacy died about 11:30 o'clock Tuesday morning, August 4, 1931. He was buried in the new cemetery at four o'clock Wednesday afternoon after a memorial service conducted at the Methodist church by Rev. J. W. Long. Rev. Long was assisted by the pastor, Rev. Lancaster and three former pastors, Rev. J. A. Alexander, Rev. A. M. Foster and Rev. M. Williamson. A large concourse of sorrowing relatives and friends attended the funeral.

As we are hurrying late to press, news comes that the expected death of Mr. George Muennink occurred at a hospital in San Antonio at 4:45 o'clock P. M. Thursday afternoon. Funeral arrangements are pending as we go to press.

A more befitting mention of the passing of these good men will appear in our next issue.

DUDERSTADT-BUSS.

A very pretty early morning wedding took place Friday, July 31, at the Methodist church when Miss Elsie Buss, attractive daughter of Mr. and Mrs. Henry Buss, Sr., became the bride of Mr. Ernest Duderstadt, a young ranchman of Hondo. The beautiful ring ceremony was read by Rev. Lancaster, pastor.

Mr. and Mrs. Duderstadt are popular in church circles and as Boy Scout master, and Camp Fire Girl guardian, they have endeared themselves to the hearts of the young people of the community.

The bride wore an attractive costume of pink and white crepe with accessories to match. They left immediately for points in West Texas and Old Mexico.

After the wedding trip they will be at home on the ranch.

MR. COTTON FARMER

Come around and take a look at the new type cotton pick sack and place your order.

C. J. BLESS.

Lieut. Arthur H. Jungman.

Pete Jungman, one of the oldest and best known employes on the Southern Pacific Lines. He is a graduate of Texas A. & M. College, and during the World War served as lieutenant in the field artillery. After the war he remained in the officers reserve corps for several years and later became identified with the Texas National Guard. He is regarded as an efficient officer, and his promotion to first lieutenant was a reward for his past conscientious effort and diligent application to his duties.

Mr. Jungman's many friends here where he grew up from early childhood are pleased to learn of his well deserved advancement.

UNION MEETING NOW ON

BAPTIST NEWS NOTES.

METHODIST CHURCH NOTES.

Our cooperative revival is going along in a very nice way; the interest is growing, the attendance is increasing from night to night. Are you coming? If not, start now. There is a place for everyone. This is a community-wide meeting, hence it is your meeting, so be on hand.

The services will be in the local churches Sunday morning, but at night everyone is expected on the square in God's great out of doors, where it is cool. Be on hand.

Rev. H. S. Goodenough will preach at the Methodist church Sunday morning. You are urged to attend. Sunday school at 9:45, be there League at 7 o'clock. A purposeful life is one that is looking ahead, one that recognizes a Christian responsibility and is striving to meet it. "Think on thy way."

Our church family has been saddened by the passing of our dear Brother Lacy from our ranks to the Home of the redeemed. But our loss is his gain. This life passing from our midst, and the eulogy from all lips of it should be an inspiration to everyone to live the Christ-like life. His mantle is to fall upon someone, who will it be? May there be many who will see more clearly the joy of Christian service and help to carry on. What he has done, others can do by the Grace of God.

P. E. LANCASTER,

Pastor.

INSTALLATION SERVICES.

Tuesday night was the occasion of a most impressive service in St. Paul's Lutheran Church. The installation of the pastor took place. A large audience was deeply moved by the powerful and impressive sermon delivered by the president of the American Lutheran Church in Texas, the Rev. E. A. Sagebiel. His text was taken from the Gospel of St. John, chapter 21, verses 15-17. Both the pastor and the congregation were impressed with their sacred duties to God.

The Rev. K. Konzack of Castroville spoke for a short time on the above text in the German language. His words were inspiring.

As a fitting climax to the service the Rev. C. P. Hasskarl of Quilhi spoke on the theme, "Co-operation." He chose as his text, 11 Cor. 6, 11, "Co-operation in church work is not optional, but is a duty," the speaker emphasized.

The selections by the choir helped to beautify the service.

The Rev. Sagebiel delivered the charge to the pastor and to the congregation, assisted by the pastors.

May the relation of pastor and congregation prove a real blessing in this church and this community!

LUTHERAN LADIES ENTERTAINED.

Mrs. Amanda Muennink entertained the Lutheran Ladies Aid Society at her lovely country home, north of town. Rev. Walter Leibfarth, the newly installed pastor, and his charming wife were honor guests of the society.

After a devotional and business meeting a social hour was enjoyed. The hostess served dainty refreshments of sandwiches, cake and ice tea to the members and guests.

EPISCOPAL CHURCH.

There will be a Service of the Episcopal Church in the auditorium of the Hondo High School a week from next Sunday night, August 16th at 8 o'clock.

The Rev. Henry N. Herndon, Pastor of St. Philip's Church, Uvalde, will conduct the Service and preach.

Everyone is cordially invited to attend the Service. And anyone wishing for more information are referred to Mrs. W. H. Case.

AN EVENT.

The real Suit Sale event of the season. Jennings is announcing elsewhere in this paper. Suits that formerly sold for as high as \$37.50 are marked down to \$25.75. All of these suits have extra trousers and are year around patterns. The Sale starts Monday 10th.

Despite the fact that not a few of our Baptist people were away from Hondo last Sabbath, we had a splendid attendance at both the Bible school and also the preaching services. Several visitors from out of town worshipped with us and found a hearty welcome. Among these were Mr. and Mrs. Allen of San Antonio and Mrs. Sheppard of Mirando City. Visitors are ever welcome in our congregation. The Christian religion makes the world akin.

On Sunday evening, we joined with our Methodist friends and others of the community in an open air service, which has continued all the week. These community services are expected to continue at least another week, with preaching each evening on the square opposite the courthouse. Everybody most cordially invited, including our friends of the Mexican and colored population. Special seats are prepared for the accommodation of all. Let all recall the words of Holy Writ which says that it is, "Righteousness which exalts a nation; while sin is a reproach to any people." As we get close to God, we also get closer together.

At eleven o'clock Sunday morning, our regular preaching service will be held at the church house, preceded by the Bible study at 9:45 o'clock.

ST. PAUL'S LUTHERAN CHURCH.

"A Changeless Christ for a Changing World."

Next Sunday, August 9, the pastor will deliver his introductory sermon in the English language. All members especially are urged to be present. A hearty invitation to all friends and to all who have no church home is hereby extended. Come to the church where sinners can find their Savior, and become servants of the Most High God.

The Sunday school teachers are to meet at the church on Friday night, August 7, at 7:30 o'clock.

The church choir will have rehearsal on Wednesday night at 8 o'clock.

Our Sunday school is held every Sunday morning, beginning at 9:15. Start your child right and send him to the Lord's House. Every child not already attending Sunday school is welcome.

The Luther League spent a profitable night on Sunday when they heard the report given by the delegate to the chautauqua, which was held in Seguin. Miss Alice Muennink prepared the report, giving the high lights of the convention, which offered much inspiration for young people's work.

The next regular meeting of the League will be held on the night of September 6. "The Youth Movement in the American Lutheran Church" will be the topic.

WALTER C. LEIBFARTH,

Pastor.

QUIHI NOTES.

"Being justified by faith, we have peace with God through our Lord Jesus Christ." Romans 5, 1.

Sunday morning, Sunday school and Bible class meet at 9 o'clock. A cordial invitation is extended to both old and young to share in this work.

Divine service in the English language will be held in Bethlehem Lutheran church at 10 o'clock A. M. Please bring your English hymn books to this service. All are cordially welcome.

At 2 o'clock P. M. divine service will be held in St. John's Lutheran church at New Fountain. All are always welcome at all services in this church.

A splendid musical-literary program is being prepared by the Quilhi Luther League to be rendered August 20th.

JUNIOR DEPARTMENT ENTERTAINED.

Mrs. Sid Carter, Miss Lucille Woolls and Elizabeth Lancaster entertained the Junior Department of the Methodist church with a lawn party last Thursday afternoon. There were many interesting games played and the young people had a real good time.

Ice cream and cake were served to about thirty boys and girls. The time came too soon to go home and all are hoping the party will be repeated soon.

FARM LOANS

The Hondo National Farm Loan Association, H. E. Haass, Sec.-Treas. Hondo, Texas, representing 260 borrowers with \$1,025,280.00 borrowed is prepared to make farm loans anywhere in Medina County under the Federal Farm Loan Act at 5 per cent interest and 1 per cent 36 year amortization repayment plan. Sixty-two thousand Texas farmers have taken advantage of this system of borrowing over one hundred eighty-one million dollars. Why not you? Former restrictions have been taken off and you may borrow for any purpose provided for in the Act, as a farmer only.

Golden Chief's Lady May 601637, purebred Jersey cow shown above, recently broke two world production records of the Jersey breed by yielding 19,922 pounds of milk, 893.89 pounds of butterfat in 305 day official test. Her milk yield during this test exceeds by almost a ton of milk the existing 305-day world record for Jersey milk production, all ages, and her butterfat yield breaks the existing world butterfat production record of the Jersey breed for mature cows, 305-day tests. Golden Chief's Lady May is owned and was tested by Lloyd A. Hulburt, Independence, Oregon.

VALUABLE FEED DISCOVERY.

For many years I have used cottonseed as a feed filler for use with cottonseed meal and shorts in feeding both beef and dairy cattle. However, last season some of the oil mills, due to the high demand and low price of linters, crushed cottonseed just as they came from the gins, and this is the first time I have had the opportunity to test out feeding of hulls that had not been stripped of their last vestige of lint through reginning process, commonly used by the crushers and this experience in cattle feeding shows that the use of hulls as a feed filler that have not been reginned by the crushers prevents "feed cough" by better holding down the dust of meal and shorts that otherwise would be inhaled by the cattle while eating.

The additional lint on the hulls also prevents "pack-belly" sometimes occurring among cattle during heavy feeding periods, and by holding the feed more open in the pauch, causes better digestion of feed, thus making the cattle look better and gain weight more rapidly.

Anyone feeding cattle for beef purposes, or dairy use, can well afford to pay a higher price for cottonseed hulls that have not been reginned by the oil mill.

This discovery is of great value to the cattle feeders as it offers them a better feed filler which, in addition to the good features already mentioned, is also softer and more relished by the cattle.

It is also good for the oil mills by affording them a sure outlet for their linters. It will also be of value

to cotton growers by removing from the market many thousands of bales of linters which annually compete with short staple cotton produced in various sections of the country.

This discovery being of mutual interest to cattle feeders, oil mills and cotton growers, I feel it my duty to call public attention to the facts herein set forth.

L. D. Bertillion,
Mineola, Texas.

MAKING THE FARM PAY.

That "co-operation pays," is evidenced by the fact that the Dairy-men's League Co-operative Association of New York State handled a bigger percentage of its supply and surplus products for its farmer members during the past April than for any April since 1923. While the dairy outlook May first was not bright, nevertheless dairy and poultry farmers are in a better economic position than other farm industries. On April 15 dairy products were 27 points below prices of a year ago, fruits and vegetables 67, cotton 42, meat animals 40 and grain 36 points.

It looks as if scientific co-operation did pay in the dairy industry.—Selected.

FROM one million tubes in 1922 to seventeen million tubes in 1930... that is the story of the remarkable growth of Ipana tooth paste.

The reasons that have made it the favorite of millions make it the ideal dentifrice for you and your family. Ipana has grown

BECAUSE it makes teeth brilliantly white.

BECAUSE it strengthens and invigorates the gums.

BECAUSE it cleans and refreshes the whole mouth.

BECAUSE dentists know its value and recommend it.

BIRTHDAY PARTY.

On Tuesday afternoon, July 28, Miss Evelyn Graff entertained with a birthday party in honor of her sister, Miss Kathryn, the occasion being her thirteenth birthday. A number of friends gathered at the home of her grandmother, Mrs. Joe Mechler. After about an hour of joy-making all joined in playing Bunco. At the conclusion of fifteen games, Eva Mae Pichot held high score and was awarded first prize. Dorothy Marie Rieber won second and Melba Mussmann third.

The small children were entertained with a game of "donkey" in which Mildred Van Fleet won first prize, Adele Pichot second and John Henry Graff third.

A delicious lunch was served to Mesdames F. L. Graff, Joe Mechler, Misses Julia Mann, Evelyn Mann, Thelma Bendele, Ethel Bendele, Eva Mae Pichot, Adele Pichot, Adah Belle Pichot, Annie Laura Renken, Dorothy Renken, Dorothy Marie Rieber, Corine Graff, Melba Mussmann, Kathryn Graff, Dorothy Marie Graff, Mildred Van Fleet, Frances Van Fleet, Alice Graff and Bobbie Van Fleet. Sonnie Graff, Chester Schmidt, Sonnie Rieber, John Henry Graff and the hostess, Miss Evelyn Graff.

At a late hour in the evening everyone left for their homes wishing Kathryn many more happy birthdays.

We wish to correct an error made in the last issue of this paper. The youth operated for appendicitis Friday at the Medina Hospital was "Buddy" Floyd Mechler, youngest son of Mr. and Mrs. Alfred Mechler, and not Buddy Griffin as stated. Floyd was able to be moved home Wednesday morning, and is improving rapidly.

Judge and Mrs. H. E. Hauss and Misses Irene Hauss and Adah Belle Carter left Tuesday afternoon for Lockhart where they attended the Ernest Schmitt trial. They plan to return after visiting in Bastrop and Austin. Roy Schweers accompanied them to Lockhart where he will visit his aunt, Mrs. H. H. Heyen.

Relatives are in receipt of news from Houston that a fine girl made her appearance at the home of Mr. and Mrs. Joe Moth, July 26th. The little Miss is a granddaughter of Mrs. T. F. Cook, and has numerous relatives in Medina County.

John Zerr who lives at Portland but has been visiting his mother, Mrs. Joe Zerr, and other relatives and friends in this section, included this paper before returning to his home in the coast.

YOU JUST CAN'T.

The editor took a few hours off from the grind of the print shop Tuesday afternoon to vacation down on the farm with Mr. L. J. Schmidt. We rambled around the farm and fondled the corn ears that are full and plump and heavy and nearing the ripening stage when their silvery grain will be ready to convert into meal and the staff of life by which strength and energy is given to mankind. Mr. Schmidt has about 325 acres of this crop on his Yancey farm and is very much interested in market quotations right now. We drank water right out of the big 50-foot dug well that since 1884 has been pouring out of its depths its cooling flood of water to cheer and refresh all who might wish to drink. We felt again the thrill of thumping watermelons half hidden among the vines where they grew, and knew the boyish delight of finding luscious ripe hang-overs on the peach trees that had been missed by the harvest pickers that had gone before. Oh, you can take a country boy out of the country and shut him up in the grind and moil of a print shop and make a hardboiled old man out of it, but you can never take the country out of his heart. You just can't.

The Anvil Herald folks were delighted to have a fraternal call from Mr. T. C. Richardson Monday. Mr. Richardson is Field Editor of the Farm and Ranch and has a first hand knowledge of agricultural conditions and possibilities in this great state equaled by few if any in the state. He was enroute to Marfa on business for his paper, and stopped long enough to express his delight at the crop prospects of this section and drop the suggestion that the way to market our fine feed crops to best advantage is through live stock fed on the farm.

Probably the youngest business man in Hondo is Bru Miller. He has purchased the electrical supplies business of Robert J. Brucks, who retires on account of ill health, and has thus entered business for himself. Though in a small way, Bru believes, as does his father, in newspaper publicity, and he sets several older Hondo men an example worthy of being followed by offering his services to the public through the ad columns of this paper. Here is success to him.

Rev. Walter C. Leibfarth, the new Lutheran Pastor at Hondo, joins our corps of readers this week. Mr. Leibfarth is a native of Iowa and a young man. We join the community, regardless of church affiliation, in the wish that his life among us may fall in pleasant places.

Milton Rath and Ralph de Montel were visitors in Uvalde Sunday.

George W. Sisson, Jr., of Potsdam, N. Y., elected president of the American Jersey Cattle Club.

George W. Sisson, Jr., Potsdam, N. Y., elected president, The American Jersey Cattle Club, has initiated some of the most important work of the Club in furthering the improvement of the breed in America. Long identified with agricultural development in New York State and nationally with forestry problems and the paper and pulp industry, he is a past president of both the New York State Agricultural Society and the American Paper and Pulp Industry.

Mrs. Alfred Schlentz was a business caller at this office Saturday and joined our corps of readers. Mr. Schlentz is one of our most successful farmers, and practices a diversified agriculture that includes the growing of fruit as well as live stock, grain etc. on his farm. Some specimen of Summer Beauty peaches brought the editor were as fine both in size and appearance as well as flavor as were ever produced anywhere.

A great many Hondo people joined the D'Hanis folks last Sunday in their Home-Coming celebration. A delicious dinner of barbecue meats and sausage and everything that goes with them to make a delightful meal was served to a large crowd at the parish hall.

CAMP RIO FELIZ PAGEANT.

Sunday Afternoon, August 16, at Con Can, Texas.

Everyone in Camp Rio Feliz is enthusiastically interested in the development of the Cliffside and Water Pageant, featuring the local atmosphere, written by Mrs. Marvin McAskill, director of Dramatics, and Pageantry, for the closing program of Camp Rio Feliz.

The theme of the pageant is the joining together of the spirits of the hills and the river in order to obtain perfect peace and harmony in the Rio Canyon Country.

The spirit of the Hills presents the breezes, the woodland nymphs, the dwarfs, the cliffside flowers, the butterflies, and the rock maidens on the cliff.

While in the water, "Ole Man River" brings with him his snakes, eels, turtles, spotted bugs, and flying fish. All of these participate in the water races and fancy diving contests. There will be solo dances and spectacular swimming.

Approximately one hundred persons will participate in the pageant to which all are cordially invited.

Bring pillows or automobile pillows for comfort.

BRIDGE CLUB.

Mrs. Henry Eiry was a charming hostess on Wednesday afternoon when she entertained the members of her club and several additional guests at bridge. Vari-colored flowers were used in the decoration of the pretty new home. Mrs. Joe Williams received a novel salt and pepper set for high, and Miss Tina Rothe a towel for low. The consolation prize was awarded to Mrs. F. Rock.

Delicious refreshments were served at the close of the games to the following: Mesdames F. Rock, M. J. Finger, Henry Nehr, Ed. Finger, John Rieber, A. M. Rath, Chas. Rohrbach, E. A. Rothe, and Joe Williams and Misses Tina Rothe, Thelma Langfeld, Cornelia Koch, and Grace Zinsmeyer.

Drivers of sixes never want less

because it takes six cylinders
to give the smooth, silent
power that makes driving
really enjoyable

Drivers of sixes are spoiled for anything less. Drivers of sixes are sold on multiple cylinders. They would no more think of giving up "six" performance than any other real advancement of motoring. For them, the whole cylinder question has been settled.

Slip behind the wheel of a Chevrolet Six, and you'll know why these drivers feel as they do. Step on the starter, let the motor idle—and notice its silence. Throw in the

clutch, shift into "low"—and feel that smoothness. Change into "second," hit a faster and faster clip, slip into "high," sweep along at top speed—then throttle down to barely a crawl. The smoothness and flexibility you always get are six-cylinder smoothness, six-cylinder flexibility. Annoying vibration is gone!

Over two million owners have tested and proved this six-cylinder Chevrolet engine. They have found that it costs less for gas and oil than any other. They have found that it actually reduces upkeep costs, by holding vibration to a minimum. They know a six is better in every way—and they would never be satisfied with less!

Twenty beautiful models, at prices ranging from \$175 to \$675
All prices f. o. b. Flint, Michigan, special equipment extra. Low delivered prices and easy C. M. A. C. terms.

TEXAS AND TEXANS.

"All Texans for All Texas"

Investigations A'Plenty.

With the Texas Senate, the Lower House and the Attorney General all conducting separate investigations at the same time, the people who pay the bills should have been getting some valuable information, but all they know is "what they see in the papers" and that doesn't seem to be much. It is hard to tell just what the investigators have been trying to learn, if anything. The same kind of inertia appears to be hanging over the legislative body that ex-Gov. Neff seems to regard as the perpetual condition of the Texas Railroad Commission—there has been a woeful lack of interest. During the House investigation, in which presumably the whole house of 150 members has been sitting as a committee, only from 40 to 60 have been present at a time. However, the entire membership has been able to come to life long enough to receipt for the weekly pay checks of \$70, and the session drags wearily along toward the end a receptive mood for another 30 day session at \$10 a day. Such is life for "the elect."

Neff Grows Caustic.

Ex-Gov. Neff, member of the Railroad Commission, says there has never been "a gesture at enforcement of the commission, and that existing laws have been ignored, including the pipe line law, the common purchaser act and the statute giving the commission authority to regulate pipeline rates. That sounds bad, but when asked why the commission has been lax and indifferent in enforcing conservation laws, his reply was worse: "Physical inactivity, mental inertness and an overpowering desire to work along lines of least resistance." A liberal interpretation of this language would be "laziness, stupidity and politics." Perhaps it might be construed to include indifference to public interests. He said, also, that since he has been a member of the commission, only two days has been given by that body to study of the vast gas problems of the State, despite the fact that in some of the Texas fields four dollars worth of gas is used to produce one dollar worth of oil. His testimony was as hot as an oil well fire.

Something Learned.

It may not help conditions to know it, but it was interesting to hear the President of the Humble Oil Company say that the Standard Oil Company of New York owns 65 per cent of the Humble stock and has power to discharge its officers at will. Also that it is a custom of the company to make advance royalty and lease loans to delay development of oil fields when development is considered unwise, as much as \$9,000,000 having been loaned in that way. It would be equally interesting to know in just what other Texas corporations the Standard owns controlling stock.

Trek to Cotton Fields.

Approximately 100,000 unskilled laborers will be used in the South Texas cotton fields, beginning this week and continuing until the last of the year, where about 1,000,000 bales of cotton will be picked. While the price paid pickers will be only around 50 cents a hundred, that is regarded as along the line of cotton prices and the total sum will aggregate some \$8,000,000 for labor. The Texas crop this season is now estimated at 4,000,000 bales, for gathering which over \$32,000,000 will be paid. This will go far to relieve any serious unemployment situation in Texas.

Banner Corn Counties.

Gonzales, Guadalupe and Wilson are the banner corn counties of Texas, Gonzales and Wilson producing nearly a million bushels each, while Guadalupe has produced nearly a million and a half bushels. That amount of corn converted largely into livestock should keep any county from poverty.

Some Peaches.

The Floresville Chronicle-Journal reported that a subscriber had exhibited four of the finest peaches ever grown in the county, four of them weighing exactly 2 1/2 pounds, or an average of 10 ounces each, none of the four being small enough to go into a large tea cup. But a De Witt county farmer said those were evidently dwarfs, and to prove it showed a peach from his farm that weighed 20 ounces and measured 10 inches in circumference, that being one of 150 equally large ones growing on the same tree.

Cantaloupes Plentiful.

This scribe dearly loves cantaloupes and likes for them to be so plentiful that he can afford one occasionally for breakfast. This season he has had several, said to have been grown near Elgin, that are as delicious as any ever seen. Carload shipments have begun out in the Pecos country and it is claimed that they outclass any other Texas grown melons, but if they are better than the Bastrop county products they are indeed "food fit for the gods." The

Brownwood Bulletin columnist recommends that cantaloupes be eaten twice a day—fresh from the ice box for breakfast, and as pineapple preserves for supper.

Community Canning.

There is a community canning plant at Pearsall, for canning meats, fruits and vegetables. It is under the supervision of the vocational agricultural teacher and can be used by any one living in the school district without any expense except for cans and necessary materials. Those who do not know how to do the work are instructed. This season a total of 25,000 cans have been put up, and the food is now stored in home pantries ready for use as needed. This is a fine way for schools to make themselves doubly useful to their communities.

Texas Twine Factory.

The Harlingen Chamber of Commerce is planning to build a twine factory at a cost of some \$75,000. Just why Texas does not make all the twine used in Texas can hardly be understood. The manufacturing process is simple and inexpensive.

Making More Lawyers.

Mission now has a law school and the attendance has increased until more teachers are required. It is hard to understand why more people should be taught to practice law, for the profession is much over-crowded, but there is no reason why Mission should not do it, if it is to be done, and just as satisfactorily as the State is doing it at its University.

Big Ranch Barbecue.

Col. J. L. DuBose, Westhoff ranchman, began after the World War to give a barbecue annually to the veterans of DeWitt and Gonzales counties. It proved popular and this year the attendance reached 800 persons, but only half the guests were war veterans. The others may be classed as "barbecue veterans." If you want to feel popular just announce a frpe barbecue for all your friends.

Some Big Barbecue.

Brownwood gave a barbecue to celebrate the completion of a concrete highway from Brownwood to Comanche, and invited all the people of Brown and Comanche counties to attend. Some 10,000 or more were there, and it was some joyous celebration. The Bulletin issued a 30 page paper instead of the usual 8 to 12 page edition, just by way of helping to make merry.

Hitch-Hiker Hold-Ups.

Every day Texas papers report that accommodating drivers of cars have been robbed, sometimes of both their money and their cars, by hitch-hikers whom they have invited to ride with them. The practice has become so common that the hikers seem to think that an invitation to ride carries with it an invitation to be robbed and that they will show lack of appreciation if they take less than all that the car driver has.

COLONIAL COVERINGS.

One of the most blood-stirring climaxes ever depicted on the talking picture screen marks the end of "Air Police," and inspiring celluloid narrative, which will be shown Saturday at the Colonial Theatre. Kenneth Harlan, Josephine Dunn and Charles Delaney share stellar talent honors in this thrilling talkie. To what lengths an aviator will go to avenge the murder of a brother flyer is the story graphically told in "Air Police."

One man's life, another man's reputation, and two tender love affairs are delicately balanced, one against the other, in Paramount's thrilling drama of a professional man's dilemma, "The Lawyer's Secret," the Sunday and Monday feature at the Colonial Theatre. Acted by an all-star cast, including Clive Brook, Richard Arlen, Charles Rogers, Fay Wray and Jean Arthur, this vivid story comes to life on the screen. "The Lawyer's Secret" is an emotionally tense picture of a situation that might confront anyone in these days of complicated living.

Robert Montgomery turns butler in "The Man in Possession" which opens at the Colonial Theatre on Thursday. In his new vehicle the young star appears as the hero of a delightful masquerade, impersonating an English butler to accommodate a dashing young widow-in-distress. In fact, as the story unfolds, also taking the place of her absent lover, Montgomery is smilingly at ease in even the most disastrous moments of his masquerade and offers perhaps the most engaging performance of his young career. Charlotte Greenwood tops the supporting cast as the maid-of-all-work who becomes a confidante of one to watch the new butler's antics with profound suspicion. Included in the sterling cast are Irene Parnell, C. Aubrey Smith, Beryl Mercer, Legnald Owen and Alan Mowbray all ideally cast.

REUNION DINNER HELD BY PEARSALL FAMILY.

Pearsall, Tex., July 30.—Mrs. T. P. Nixon held a family reunion at her home here Sunday when her sisters and brothers assembled together. A chicken dinner with all accessories was enjoyed. Mrs. Nixon's parents, the late Mr. and Mrs. Newton, were old settlers of Southwest Texas.

The guests at the reunion included: Mr. and Mrs. J. G. Newton, Mr. and Mrs. O. B. Bradley and children, Kenneth, Jackie, Sparky, Mildred and Elizabeth; Mrs. S. D. Woods and children, Dorothy, Grace and Lawrence; Miss Lou Randle, aunt of Mrs. Nixon, and Miss Bertha Newton, all of Hondo, and Miss Alice Newton of Houston; Mr. and Mrs. T. P. Nixon and son, William, of this city.—Friday's Express.

A REMINISCENCE GATHERING.

By Juliette Frazier.

Sometime ago while some of us were discussing plans for our next Community social, it struck me that there were some of the old folks living close by who were never seen at any of our entertainments, and whose lives seemed to hold very little pleasure.

Upon mentioning this fact to my companions, it was decided that arrangements should be made to occasionally hold some sort of entertainment especially for the old folks of our community—those who were no longer able to engage in the lively activities of the younger set.

A little investigation revealed there were about twenty of these elderly people living within the radius of two miles of our Community Club House, but who never attended any of its social functions. Some of these folks had not been to any social gathering outside of their own home for over a period of ten years.

We wrote them all invitations, asking them to come to "A Reminiscence Gathering."

They were called for and brought to the club house in automobiles, and after the early evening was spent, they were taken home the same way.

Sociability was promoted from the very start by asking each guest to tell of some interesting incident which took place in their early life. The person who told the most interesting story received a box of homemade candies.

At five o'clock the guests were ushered into the dining-room which was decorated with old-fashioned flowers, such as pansies, mignonette, garden pinks, verbena, etc.

A large shallow basket which had been silvered with silver bronze, and filled with purple and yellow pansies formed a lovely centerpiece upon the dining table which was covered with pure white linen cloth. The place cards bore pictures of "ye olden time," some with spinning-wheels, some with quaint figures dancing the "minuet."

Two young girls dressed in old-fashioned costumes of dimity, assisted in serving the refreshments. The menu was simple so that all could enjoy it. It consisted of cold sliced chicken, whole wheat bread sandwiches, fruit salad, old-fashioned pound cake, vanilla ice cream decorated with tiny bits of candied orange peel and chopped maraschino cherries, coffee and tea.

After the supper the guests were ushered back into the reception hall. One of the young ladies played the piano and the other the violin. They played "When You and I Were Young, Maggie," "Silver Threads Among the Gold," and other old songs which all the guests could enjoy.

For the benefit of some of the old gentlemen who were war veterans, there were four young men who formed a quartet and sang some of the old patriotic songs, such as "Marching Through Georgia," "Tenting Tonight," etc.

Then as the ladies picked up their knitting which they had brought along, the men smoked their pipes and told stories of the early days which carried them back to their youth—when they wandered "down by the old mill stream."

The entertainment of these guests proved such a success, that our club has made arrangements to occasionally set aside a date on which to give a social especially adapted to the amusement of the old folk of our community, and it has provided a special fund to be used for furnishing the refreshments and some suitable entertainment for that purpose.

KEEP THE SOIL FERTILE.

By P. G. Holden,

Field Director, Agricultural Extension Department, International Harvester Company.

Any system of farming that does not include a crop rotation is not safe farming. It is not profitable farming.

When we plant the same land to the same crops year after year, we continually rob the soil of its fertility, invite soil erosion, encourage plant diseases, and insect pests.

In the cotton belt, in the wheat belt, and in the corn belt there are thousands of farms that are less productive than they were a generation ago. Hundreds of these farms, ruined by the loss of fertility and by soil erosion, have been abandoned.

Nearly every plant disease increases in activity when the same crop is planted year after year. If these diseases do not have the same host plant for two years in succession, they are unable to gain headway.

In adopting a system of rotation, the following things must be considered:

1. Climate condition.
2. Soil condition.
3. The relation which the various crops bear to each other.

Legume crops,—red clover, sweet clover, cow peas, soy beans, etc., should be rotated with grain crops. Legume crops improve the texture of the soil, add humus and nitrogen, prevent erosion, insure larger yields from crops that follow them.

It is not often that one-crop farming pays for even a short period. It never pays in the long run. There is but one safe system—crop rotation and diversification.

Do not raise just cotton or grain alone. Grow legumes. Plow the stubble under. Raise live stock. Put the manure back on the land. Sell your grain crops in the form of beef, pork and dairy products.

Poverty is the inevitable heritage of the farmer who practices the one-crop system year after year, and hauls his crop to market. He robs his soil, robs himself, and robs his children, who must farm the land after he is gone.

A USEFUL VEHICLE—GUESS WHAT IT IS.

About seventy-five years ago when a boy in Kentucky, most every farmer had one of these slow-moving vehicles and many of the pioneers of Texas used them. I used one for about twenty years at Luling and found it a very useful article.

When I had a broken leg and could not get on a horse, or in a buggy I could get out in the field and garden and direct the work of hired help, or go up to town for my mail or groceries, or transport melons, vegetables or fruit to Luling I got aboard this slow but safe vehicle, and went sliding along. Yes, it was a slide—something every farmer needs, and ought to have. You can use a slide in a dozen or more ways all the year around. By the use of a slide you can raise more and better Irish and sweet potatoes, more and better water melons, and garden truck. Now if you don't know how that can be done come to see me and I will gladly tell you why.

To make a useful slide, get two pieces of lumber, 4x8 and 5 feet long, or 4x10 in. for the runners. Cut your cross lumber for floor 3 ft. 8 inches long, slope the runners in front; say each one down two inches and set in a 2x4 good piece of timber level with the runner and have it six inches from the end of runner. Bore a half inch hole near back of the 2x4 piece for the clevis to work in, then floor it to rear end. Be sure to put the clevis hole exactly in center of the 2x4 piece, and hitch a horse, a mule, a cow, a steer or mow and slide along. No charge for the suggestion. LEA BEATY.

HOGS VACCINATED FOR
CHOLERA MORE DIE.

Dairymen and hog raisers east of town conferred here Saturday evening in regard to the hog situation, in the jack-oaks, where it is claimed 75 head have died; and straggling hogs from a pasture containing several hundred head had jeopardized several other herds. They were trying to get in touch with county authorities to see about quarantine. A San Antonio veterinarian pronounced it hog cholera after County Agent Merritt had failed to decide, we are informed, as to what the trouble is. An old hog raiser who resides out that way says it is "Hog measles and rickets." Probably one-half the hogs in Medina County are located out that way, and it is very unfortunate that a disease is among them.

FROM YANCEY.

Our revival meeting closed Sunday night, after being conducted for two weeks by our pastor, Bro. Rogers, assisted by the singer, Mr. John Sparks. The revival was a success from a spiritual standpoint, the altar was crowded night after night with penitent individuals, a good many members rededicating their lives to the service of God. Large crowds attended every service and good feeling prevailed during the entire meeting. There were three additions to the church.

We are sorry to report the serious illness of Mr. Fritz Faserer during the last week. The physician pronounced his condition somewhat improved on Sunday and we hope he will soon recover.

Friends of Mr. George Muennink of Hondo regret very much of his critical condition at the Santa Rosa Hospital where he underwent an operation early last week; and is also suffering from injuries received when he was knocked down by a passing automobile. We hope for his speedy recovery.

Mrs. George Heiligman, John Berry, James Weekly and J. N. Wilson went to Gonzales on business Saturday.

Almost the entire congregation of the Adventist church, both white and Mexican, are attending a ten days' meeting at San Antonio, which is being held there annually.

Mr. Reuben Lechenberg and family of San Antonio were here Sunday as guests of Mr. Henry Faserer's family.

Mr. John Wiemers and family of Elstone attended church here Sunday and also visited Mr. Alfred Wiemers and family.

Mr. and Mrs. Bickenbach and Miss Flossie Gerdes were visitors here Sunday.

Mr. J. S. Darby and family of San Antonio, who are relatives of the Wilson and Nixon family, spent Sunday here.

Mr. Ernest Hartung and family of Hondo were visitors at the home of Mr. Willie Faserer and family Sunday.

Prof. T. H. Roensch and family left Monday for a week's outing on the Nueces River near Uvalde.

Mr. John Sparks, whose home is in San Antonio, left Monday morning.

The living room and dining room were decorated in orange and white and beautiful bouquets of roses and zinnias. The bride-to-be was asked to sit in a decorated chair, then little Francis and Annie May Rihn brought in a decorated basket and pinned it at her feet, in which contained many beautiful gifts which everybody enjoyed looking at as they were passed around. Luncheon was served consisting of delicious cake and punch. Everybody left for home thanking the hostess for such a nice evening.

Mrs. Frank Rihn was assisted in receiving and entertaining by Mesdames Louis Rihn and Raymond Schott.

A Biry farmer told us the other day that the dance hall at Biry had around 7,000 bushels of oats stored within its walls. Whatever might be our ideas about public dance halls, we can all agree that this hall is being well used now. Another farmer has 27 bales of cotton stored in the cotton seed house in the gin.

The Hondo Anvil Herald begins its forty-sixth year, thirty-one years under one management. Editor Davis facetiously remarks: "We started with nothing and we are determined to hold our own." These are trying times on small town papers, but Davis seems to be "holding his own and building some."

LEMON AIDS.

Every one knows that hot lemonade is good for a cold and cold lemonade is an excellent beverage for a hot day.

Do not think for a moment, however, that the little lemon's uses are so easily exhausted.

When towels become dingy, put them in a pan of cold water with soap and lemon juice. Heat gradually to boiling point. Rinse in lukewarm water and blue as usual.

To clean the white keys of the piano, rub with paste made of whitening and lemon juice.

When aluminum kettles become dull or black, clean them with a cloth dipped in lemon juice, then rinse in warm water.

When whipping cream add three or four drops of lemon juice to a cup of cream to make it stiff and firm.

A teaspoon of lemon juice added to the water in which lamb or veal for stew is cooking will add to the flavor and tenderness of the meat.

Tax Measures the Man

The man who is careful, keeps down expense, Who uses in business good common sense, May never be rich as they call men today, But he never misses to have tax to pay. The man who to business pays little heed, Keeps buying things he does not need, Is a man very likely who pays little tax. He accumulates nothing; his methods are lax. The Hondo State Bank would advise that the man Who pays no tax better change his plan.

YOU ARE INVITED

ONE CROP SYSTEM MEANS FAILURE.

By P. G. Holden,

Field Director, Agricultural Extension Department, International Harvester Company.

When the crop is cotton or wheat, or corn, or something else, a one-crop system is the surest way of making poor soil, poor people and a poor country.

The very first essential to the prosperity of any state or any community is the ability of the people to feed themselves.

The farmer who would prosper must have something to sell every day in the year so that his cotton or his wheat, or whatever his main crop is, may be his cash crop.

The man who farms by the one-crop system is waging his season's labors that nature will be especially kind to him. He is betting that conditions for the growth of that particular crop, conditions which he can not possibly regulate, will be satisfactory.

If his one crop is wheat, he is gambling that he will escape smut, and rust, drouth, wind and hail, the chinch bug, Hessian fly and other crop enemies. If his one crop is cotton he is staking his season's work against the work of the boll weevil.

He may escape smut and rust, the chinch bug, and the boll weevil, but he is robbing his soil and he can not possibly escape the loss of soil fertility.

The raising of other crops and the growing of live stock, especially dairy cattle will give the farmer something to sell when the rust takes his wheat or the boll weevil takes his cotton.

The man who is hardest hit by a crop shortage or by bad market conditions is the one-crop grain or cotton grower. The dairyman, the man

who follows diversified farming, the hundreds of homes where poultry supplies the table and clothes the family—these enjoy continued prosperity every day in the year.

It takes two things to make a great state: First, the soil; second, the people.

A state may have fertile soil, but if there are shiftless, inefficient people living on it, they are not going to make much out of it. A state may have efficient people, but without production we can not have a great country.

A one-crop system takes the life out of the soil and impoverishes the people. It is only through diversified farming and the using of our energies every day in the year that we can make a rich country and a strong, vigorous people.

Diversified farming means live stock, dairying, crop rotation, more pastures, less washing of the soil, more productive land, greater profits.

Wherever you can raise corn and clover, you can grow dairy cattle and wherever you find dairy cattle you will find high priced land and prosperous, growing communities.

CHEVROLET MOTOR COMPANY.

Plans for the building and operation of a Chevrolet apprentice school of mechanical craftsmanship were announced yesterday, by W. S. Knudson, President and General Manager of the Chevrolet Motor Company.

The school building which will provide approximately 10,000 square feet of floor space, will be erected adjacent to the Chevrolet Detroit Gear and Axle Plant. Work on the proposed building will be started in the near future.

When completed the school will be equipped with every type of machine necessary to all finer mechanical arts and crafts, and the work will be directed by C. E. Wetherald, General Manufacturing Manager of Chevrolet.

The Chevrolet course will be an exact duplicate of the school operated by Chevrolet, in Flint. While preference will be given to sons of Chevrolet employees, all boys, mechanically inclined, between the ages of 16 and 18 years, will be eligible to enter the Chevrolet school. The normal course will occupy four years and the class will be limited to fifty boys.

"However," said Mr. Knudson, "there will be hard and fast rules governing the length of time the apprentices will be required to attend the school. Experience has shown that some boys progress much faster than others and these gifted youngsters will be advanced as rapidly as their work justifies."

During the first three months all apprentices entering the school will be placed on probation; if their work justifies the interest shown in them, they will be carried on until they are graduated as skilled craftsmen.

While attending the school the apprentices will be carried on the payrolls under a graduated pay scale. Upon completion of the course, the graduates will be assigned to skilled work in one of the 53 Chevrolet plants located in various parts of the country.

The course as outlined by Mr. Wetherald includes instruction in tool-making, die-making, pattern-making and general machine shop practice.

FARM FOR SALE.

The L. J. Schmidt 640-acre farm 1 1/2 miles north east of Yancey and one mile east of Yancey-Hondo road is for sale on easy terms. This is a beautiful tract of land lying in a square and faced along the entire south side by a public road. It is a fertile sandy loam soil and every foot is tillable. There are three fields, one of 185, another of 145 and another of 10 acres or a total in fields of 330 acres. The balance of 310 acres is divided up into two pastures, and a trap for the work stock and all three are accessible to an are watered by a large earthen tank. This tank is kept constantly supplied by the over-flow from a never failing well nearby. The well is fifty feet deep and has never failed in water. It is equipped with windmill. Place is well fenced throughout, has two comfortable tenant houses, big double barn and other out buildings. Property is located in a good neighborhood, in easy walking distance of a first-class agricultural high school, postoffice, store and Methodist and Baptist churches. Place will be sold on terms at \$40.00 per acre or with full equipment of nine mules, two horses, two wagons and all necessary implements and tools for cultivating the farm at \$42.50. The man wanting a good farm home or a farm investment can find no better buy than is offered in this place. If interested, do not delay but see at once the owner, L. J. Schmidt or either member of

KIDNEY WORMS OF SWINE.

Control of the swine kidney worm, which causes heavy losses in the South, depends chiefly on good sanitation, says the U. S. Bureau of Animal Industry. The eggs and larvae of this worm are comparatively short lived on pastures and lots that are well drained, exposed to the sun, and free from trash and litter. Pigs should be weaned as early as possible and moved to a clean pasture to shorten as much as possible their period of exposure to the larvae. Swine are not likely to discharge kidney-worm eggs before they are six months old. If pigs are raised under the swine-sanitation system and fed properly, most of them will be ready for market before they begin to discharge any worm eggs.

One of the most effective protectors against the nose botfly, which seriously annoys horses and whose larvae, or bots, interfere with digestion and may even cause stoppage of the digestive tract and death, is a piece of leather or belting about 5 inches wide. This is attached at each end of the bit rings by a string or snap so the entire lips, including the corners of the mouth are protected. Protectors of this type can be made on the farm or purchased. They are much better than the wire baskets or fringes of burlap or leather often used as protection against the nose botfly.

GOLD AS A COMMODITY AND MONEY.

State Press of Dallas News gives the public some half errors on this topic which need to be corrected for the public benefit. He agrees that stabilized prices would be better for the country than "wishy-washy" prices, but then he proceeds to try to prove that it cannot be done.

This kind of "gab" never will get the world anywhere. The real constructive mind would tell the world what is best, and then say "by the gods it can be done." The leading citizens of this country must become that kind of characters and then there would rise up a Moses of the times.

The next count against State Press is he denies that the price of gold in the United States, is stabilized at a dollar for 23.22 grains. He says its price is set by international supply and demand. That is partly true of course, for the international market, but is not true for the United States.

The congressional act of 1911 allows the issue of gold certificates on gold bullion deposits, and later all Gold Certificates were made Legal Tender for all debts and dues, public and private. Thus we have free coinage of gold in the United States at the price of 23.22 grains to the dollar, and as long as this is the case, gold in the United States can never drop below that price.

A man with gold to sell would be foolish to sell it anywhere on earth for less than that price, when he can get it by simply depositing it in the United States Treasury. Gold is thus stabilized in the United States. No other commodity is so favored; hence gold owners rule our market.

On exactly the same principle the government could open its treasury (its warehouse) for the free deposit of wheat at 30 pounds to the dollar, and issue Legal Tender Certificates to that effect per bushel.

The same thing could be done with corn and cotton. Of course a Pro-

tective Tariff might have to be invoked to keep out foreign imports, or else our home supply might accumulate. Our government cannot make values, but it can and does make the minimum price for gold in the United States.

The government could make a minimum price for specific services in all public affairs and thus labor prices could be largely stabilized in this country and the uncertainty of a man's labors could in a measure, be eliminated. The gold owner is never uncertain as to his price and his returns, but every other commodity producer has to take chances on fluctuating prices.

PROPER SPACING AIDS YIELD OF GRAIN SORGHUMS.

By A. D. Jackson.

Experiments over a ten-year period in West and Northwest Texas and reported in Bulletin No. 424, of the Texas Agricultural Experiment Station, show that the grain sorghums, over 60,000,000 bushels of which are produced in Texas alone, can be grouped as to suckering habits and that the ability or inability of the particular variety to produce suckers regulates to a large extent the spacing required for the largest yields. Dwarf yellow milo, hegari and feterita, according to these experiments, should be spaced on the average of twelve to twenty-four inches apart in the row, while the kafirs, belonging to the group which do not sucker freely, require closer spacing of six inches in the row. Since grain sorghum is not thinned to a stand like cotton, it is important to plant the seed at the rate that will give the largest yields.

Remember you can get FARMING and this paper both for a year each for only \$1.75.
